MOLD PREVENTION

Quik Brik's V-Tech design angles top web surfaces toward the center of the unit. Rain and crack induced water leakage is controlled in the middle of the unit. This value-added feature will keep interior walls dry and mold free, extending the life of interior finishes and improving indoor air quality.

ENERGY EFFICIENCY - R-VALUES

| | Hollow |
|--|--------|
| The R-values to the right are representative of a hollow cavity. Other fills such as vermiculite, perlite and spray in foam will increase the R-value, while a grout fill will decrease the R-value yet increase the thermal mass properties. In addition to filling the cavity of a single wythe block, design teams can achieve higher R-values by: building a layer of insulation between wythes of masonry, insulating exterior of the building, or insulating the interior of the building. | |
| 4" X 8" X 16" | 1.6 |
| 6" X 8" X 16" | 1.7 |
| 8" X 8" X 16" | 1.9 |
| 10" X 8" X 16" | 1.9 |
| 12" X 8" X 16" | 2 |

WASTE MANAGEMENT

Product arrives palletized with banding. Excess product can be returned to manufacturer and will be donated to Habitat for Humanity or crushed for base fill.

VOC COMPLIANCE

Products come with integral water repellent. If needed we offer low a VOC Waterproofing Sealer

REGIONAL MATERIALS

| Manufacturing | Extraction |
|----------------------|-------------------------|
| ● Chandler, AZ 85226 | Cinder Aggregate |
| ● Gilbert, AZ 85233 | ● Flagstaff, AZ 86004 |
| ● Phoenix, AZ 85019 | Aggregates |
| ● Phoenix, AZ 85024 | ● Maricopa, AZ 85239 |
| ● Tucson, AZ 85226 | ● El Mirage, AZ 85335 |
| ● Yuma, AZ 85365 | Cement |
| ● Needles, CA 85226 | ● Victorville, CA 92392 |
